

‘Asignatura práctica de español auditivo y oral I’

/ ‘Training Course of Audio and Oral Spanish I’

‘西班牙语听说训练I’

Course code: 05126070

16 weeks, spring-summer

Level: A1-A2

Goals: In each class the following communicative skills will be practiced: (i) listening comprehension (through videos, to be viewed first without, then with Spanish subtitles, and doing exercises on them); (ii) pronunciation (through speaking and occasionally singing songs or ‘dubbing’ extracts from short movies with subtitles); and (i) speaking (through brief conversations or role play exercises in pairs or small groups). At this level, particular attention will be paid to pronunciation and acquiring basic conversational skills.

Material for in-class exercises: Spanish short movies (both actual ones and ones created by *CampusDifusión* for teaching Spanish as L2), songs, and documentary films to learn Spanish (from DELE). The material was carefully both for its didactic and socio-cultural value (e.g. movies on basic social situations, such as ordering at a restaurant, etc.).

Material for homework: BBC award-winning interactive series to learn Spanish *Mi Vida Loca* (with Spanish and English subtitles), each episode including vocabulary lists, grammar notes, and exercises

Form of evaluation: (i) mid-term and final written exam (on vocabulary and listening comprehension); (ii) mid-term and final oral exam (in small groups, write a dialogue for a wordless short movie provided the instructor; audio-record your dialogue after the instructor’s corrections); and (iii) class participation.
