

‘Asignatura práctica de español auditivo y oral II’

(‘Training Course of Audio and Oral Spanish II’, ‘西班牙语听说训练’)

Course code: 05126070

16 weeks, fall-winter

Level: A2-B1

Goals: In each class the following communicative skills will be practiced: (i) listening comprehension (through videos, to be viewed first without, then with Spanish subtitles, and doing exercises on them); (ii) pronunciation (through singing songs and ‘dubbing’ extracts from short movies with subtitles); and (i) speaking (through discussions or role play exercises in pairs or small groups). At this level, particular attention will be paid to enriching vocabulary (especially conversational expressions).

Material for in-class exercises: Spanish short movies (both actual ones and ones created by *CampusDifusión* for teaching Spanish as L2), songs, and pieces of actual television news broadcasts. The material was carefully both for its didactic and socio-cultural value (e.g. actual newscast on the Spanish national Christmas lottery and a short movie on the Spanish celebration of ‘Three Kings’ at that time of the year).

Material for homework: ‘*Así son*’ audiovisual series by enClave ELE for students of Spanish as L2, with Spanish subtitles (incl. book with transcripts, vocabulary and listening comprehension exercises).

Form of evaluation: (i) mid-term and final written exam (on vocabulary and listening comprehension); (ii) mid-term and final oral exam (in small groups, write a dialogue for a wordless short video provided the instructor; audio-record the dialogue after the instructor’s corrections); and (iii) class participation.
